

Testimony of PCS

We are a self-advocacy group from PCS in Stockton, CA and we would like to know why they did not ask us directly regarding their questions about the services we receive. We have some comments about what services we would like back and ways we think VMRC could save money. They are as follows:

- decrease the amount of bus cards given out; especially to those who don't use city bus
- we want more jobs and we want our jobs back
- no more closure dates: we want our day programs to stay open
- we would like to see our benefits returned to us (Medi-Cal, Medicare, SSI)
- more city bus times/routes

Our day program is important to us and by cutting and/or changing services, you are affecting us. Please consider our comments.

Thank you,

Person Centered Services Self-Advocacy group
